Senator Glenn Anderson - Fighting For Us!

Glenn Anderson is focused on protecting seniors from potential abuse. Legislation that Glenn has sponsored would strengthen protections and increase transparency in the following ways:

- Increase the penalties for crimes against senior citizens and vulnerable adults and increase penalties for repeat offenders.

- Allow utility customers to designate a third-party contact to be notified by utility companies prior to a utility shutoff, to help protect seniors against unexpected shutoffs.

- Allow a senior to retain their homestead property tax exemption for their primary residence while temporarily away from their home due to health reasons.

- Reform the Michigan Catastrophic Claims Association (MCCA) board's structure to provide public oversight and greater transparency in the auto insurance rate-setting process.
